

## LEARN MORE ALL-ON-4 VS HYBRID DENTURES

### ◆ WHAT IS AN ALL-ON-4?

An "All-on-4" is a term used to describe the type of prosthesis used to restore a full smile. All teeth are secured by a minimum of 4 implants which are surgically placed. An "All on 4" prosthesis will restore your ability to talk, chew and bite with full functionality and confidence.

### ◆ WHAT IS A HYBRID DENTURE?

A hybrid denture is combination of two materials used to create a screw retained prosthesis. Hybrid dentures have a bar substructure that the teeth are attached to.

### ◆ WHAT IS A CRYSTAL ULTRA HYBRID DENTURE?

Crystal Ultra Hybrid's are the only prosthesis designed with nanoceramic materials that mimic the function of natural teeth in weight, hardness and look.

“ I finally found a prosthetic that felt and looked like natural teeth. I now have no more issues of teeth breaking off and can eat whatever I want. My Crystal Ultra Hybrid has been the solution I have been looking for.

## WHY CRYSTAL ULTRA?

- ◆ A Crystal Ultra Hybrid is a patented design to give you back the look and feel of natural teeth for all of life's beautiful moments.
- ◆ A Crystal Ultra Hybrid is 6x Stronger than an Acrylic Hybrid denture. The strength of your Crystal Ultra smile will ensure your teeth last the test of time.
- ◆ A Crystal Ultra Hybrid is 60% Lighter than a Zirconia Denture. Crystal Ultra will not damage opposing teeth so your smile will stay functional over time.

## ARE YOU A CRYSTAL ULTRA CANDIDATE?

- Do you lack confidence in your smile?*
- Can you not eat your favorite meal?*
- Has your denture broken?*

### IF YOU ANSWERED YES

to any of these questions, you, ask your doctor about a Crystal Ultra Hybrid. A Crystal Ultra Hybrid gives you the confidence to smile and eat your favorite meals without worrying about your denture falling out or breaking. Say goodbye to your denture and HELLO to your new Crystal Ultra smile!
